Product information

Thank you for purchasing a Panasonic cordless telephone.

These operating instructions can be used for the following models:

KX-TG6051

KX-TG6052

KX-TG6053

Important:

- The suffix (AL) in the following model numbers will be omitted in these instructions:
KX-TG6051AL/KX-TG6052AL/KX-TG6053AL
- References in these operating instructions to the charger and multiple handsets are for KX-TG6052/KX-TG6053 users only.

Notable feature differences among the following models

Model no.	Answering system	Talking Caller ID	Slow talk®	Intercom	
				 ↔  *1	 ↔  *2
KX-TG6051	●	●	●	●	—
KX-TG6052	●	●	●	●	●
KX-TG6053	●	●	●	●	●

*1 Intercom calls can be made between the handset and base unit.

*2 Intercom calls can be made between the handsets.

Special features

■ Handset voice enhancer

This feature clarifies the voice of the person you are talking to, reproducing a more natural-sounding voice that is easier to hear and understand (page 17).

■ Talking Caller ID

This feature allows the handset to announce the displayed caller name or phone number when a call is received (page 21).

■ Slow Talk

You can slow down the voice of the person you are talking to, making it easier to hear and understand (page 17).

Headset	KX-TCA86AL or KX-TCA92AL

Important safety instructions

When using the product, basic safety precautions should always be followed to reduce the risk of fire, electric shock, or personal injury.

1. Read all instructions carefully.
2. Follow all warnings and instructions marked on the product.
3. Unplug the product from power outlets before cleaning. Do not use liquid or aerosol cleaners. Use a cloth for cleaning.
4. Do not use the product near water, for example near a bathtub, wash bowl, kitchen sink, etc.
5. Place the product securely on a stable surface. Serious damage and/or injury may result if the product falls.
6. Do not cover slots and openings on the product. They are provided for ventilation and protection against overheating. Never place the product near radiators, or in a place where proper ventilation is not provided.
7. Use only the power source marked on the product. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.
8. Do not place objects on the power cord. Install the product where no one can step or trip on the cord.
9. Do not overload power outlets and extension cords. This can result in the risk of fire or electric shock.
10. Never push any objects through slots in the product. This may result in the risk of fire or electric shock. Never spill any liquid on the product.
11. To reduce the risk of electric shock, do not disassemble the product. Take the product to an authorised service centre when service is required. Opening or removing covers may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the product is subsequently used.
12. Unplug the product from power outlets and take to an authorised service centre when the following conditions occur:
 - A. When the power cord is damaged or frayed.
 - B. If liquid has been spilled into the product.
 - C. If the product has been exposed to rain or water.
 - D. If the product does not work normally by following the operating instructions. Adjust only controls covered by the operating instructions. Improper adjustment may require extensive work by an authorised service centre.
 - E. If the product has been dropped or physically damaged.
 - F. If the product exhibits a distinct change in performance.
13. During thunderstorms, avoid using telephones including cordless phones. There is a risk of an electric shock from lightning.
14. Do not use the product to report a gas leak, when in the vicinity of the leak.

SAVE THESE INSTRUCTIONS

WARNING:

- To prevent the risk of fire or electrical shock, do not expose the product to rain or any type of moisture.
- Unplug the product from power outlets if it emits smoke, an abnormal smell, or makes an unusual noise. These conditions can cause fire or electric shock. Confirm that smoke has stopped emitting and contact an authorised service centre.
- Do not spill liquids (detergents, cleansers, etc.) onto the telephone line cord plug, or allow it to become wet at all. This may cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall jack, and do not use.
- Do not place or use this product near automatically controlled devices such as automatic doors and fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.
- Completely insert the AC adaptor/power plug into the power outlet. Failure to do so may cause electric shock and/or excessive heat resulting in a fire.
- Regularly remove any dust, etc. from the AC adaptor/power plug by pulling it from the power outlet, then wiping with a dry cloth. Accumulated dust may cause an insulation defect from moisture, etc. resulting in a fire.

CAUTION:

Installation

- Never install telephone wiring during a lightning storm.
- Never install telephone line sockets in wet locations unless the socket is specifically designed for wet locations.

- Never touch uninsulated telephone wires or terminals unless the telephone line has been disconnected at the network interface.
- Use caution when installing or modifying telephone lines.
- Do not touch the plug with wet hands.
- The AC adaptor is used as the main disconnect device. Ensure that the AC outlet is installed near the product and is easily accessible.

Battery

To reduce the risk of fire or injury to persons, read and follow these instructions.

- Use only the battery(ies) specified.
- Do not dispose of the battery(ies) in a fire. They may explode. Check with local waste management codes for special disposal instructions.
- Do not open or mutilate the battery(ies). Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
- Exercise care when handling the battery(ies). Do not allow conductive materials such as rings, bracelets or keys to touch the battery(ies), otherwise a short circuit may cause the battery(ies) and/or the conductive material to overheat and cause burns.
- Charge the battery(ies) provided, or identified for use with the product only, in accordance with the instructions and limitations specified in this manual.

Medical

- Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids, to determine if they are adequately

shielded from external RF (radio frequency) energy. (The product operates in the frequency range of 5.76 GHz to 5.84 GHz, and the power output is 200 mW (max.).) Do not use the product in health care facilities if any regulations posted in the area instruct you not to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

Notice for product disposal, transfer, or return

- This product can store your private/confidential information. To protect your privacy/confidentiality, we recommend that you erase the information such as phonebook or caller list entries from the memory before you dispose, transfer or return the product.

Notice

- Please ensure that a separate telephone, not dependent on local power, is available for emergency use.
- This equipment will be inoperable when mains power fails.
- When a failure occurs which results in the internal parts becoming accessible, disconnect the power supply cord immediately and return the product to an authorised service centre.
- To minimise the possibility of lightning damage, when you know that a thunderstorm is coming, we recommend that you:
 - Unplug the telephone line cord from the phone socket.
 - Unplug the AC adaptor from the AC power outlet.

- No "000" or other calls can be made from this device during a mains power failure.
- The earpiece on the handset is magnetised and may retain small metallic objects.
- This equipment has been tested and found to comply with AS/NZS CISPR22: 2004 limits for electromagnetic interference. Any modifications to any part of the system or to any peripherals may void the EMC compliance of the system or the peripherals.

For best performance

Base unit location/avoiding noise

The base unit and other compatible Panasonic units use radio waves to communicate with each other.

- For maximum coverage and noise-free communications, place your base unit:
 - at a convenient, high, and central location with no obstructions between the handset and base unit in an indoor environment.
 - away from electronic appliances such as TVs, radios, personal computers, wireless devices or other phones.
 - avoid facing radio frequency transmitters, such as external antennas of mobile phone cell stations (avoid putting the base unit on a bay window or near a window).
- Coverage and voice quality depends on the local environmental conditions.
- If the reception for a base unit location is not satisfactory, move the base unit to another location for better reception.

Environment

- Keep the product away from electrical noise generating devices, such as fluorescent lamps and motors.
- The product should be kept free from excessive smoke, dust, high temperature, and vibration.
- The product should not be exposed to direct sunlight.
- Do not place heavy objects on top of the product.
- When you leave the product unused for a long period of time, unplug the product from the power outlet.
- The product should be kept away from heat sources such as heaters, kitchen stoves, etc. It should not be placed in rooms where the temperature is less than 5 °C or greater than 40 °C. Damp basements should also be avoided.
- The maximum calling distance may be shortened when the product is used in the following places: Near obstacles such as hills, tunnels, underground, near metal objects such as wire fences, etc.
- Operating the product near electrical appliances may cause interference. Move away from the electrical appliances.

Routine care

- Wipe the outer surface of the product with a soft cloth. Do not use benzine, thinner, or any abrasive powder.

Setting up the base unit

Connecting the AC adaptor and telephone line cord

Connect the telephone line cord until it clicks into the base unit and telephone line socket (❶). Connect the AC adaptor cord (❷) by pressing the plug firmly (❸).

- Use only the included Panasonic AC adaptor PQLV203AL.

Note:

- The AC adaptor must remain connected at all times. (It is normal for the adaptor to feel warm during use.)
- The AC adaptor should be connected to a vertically oriented or floor-mounted AC outlet. Do not connect the AC adaptor to a ceiling-mounted AC outlet, as the weight of the adaptor may cause it to become disconnected.
- The unit will not work during a power failure. We recommend connecting a corded telephone to the same telephone line or to the same telephone line socket using a telephone double adaptor.

- The unit is not designed to be used with rotary (pulse dialling) services.

If you subscribe to an ADSL service

Please attach an ADSL filter (contact your ADSL provider) to the telephone line between the base unit and the telephone line socket in the event of the following:

- Noise is heard during conversations.
- Caller ID features do not function properly.

Setting up the handset

Connecting the AC adaptor

Available model:

KX-TG6052/KX-TG6053

- Use only the included Panasonic AC adaptor PQLV208AL.

(230-240 V AC,
50/60 Hz)

Bottom of the charger

Fasten the AC adaptor cord to prevent it from being disconnected.

Battery installation/ replacement

- 1 Press the notch of the handset cover firmly, and slide it in the direction of the arrow.
 - If necessary, remove the old battery.

- 2 Insert the battery (1), and press it down until it snaps into position (2). Then close the handset cover (3, 4).

Important:

- Use only the rechargeable Panasonic battery noted on page 5.

Battery charge

Place the handset on the base unit or charger for **7 hours** before initial use.

- While charging, "Charging" is displayed and the charge indicator on the handset lights in amber. When the battery is fully charged, "Charge completed" is displayed and the indicator lights in green.

Base unit:

- Model shown is KX-TG6051.

Charger:

Available model:

KX-TG6052/KX-TG6053

Note:

- If you want to use the handset immediately, charge the battery for at least 15 minutes.

Preparation

- To ensure that the battery charges properly, clean the charge contacts of the handset, base unit, and charger with a soft, dry cloth once a month. Clean more often if the unit is subject to the exposure of grease, dust, or high humidity.
- When the battery is empty, "Charge for 7h" is displayed and the charge indicator does not light for about 5 minutes to concentrate on charging.

Battery level

Battery icon	Battery level
	Fully charged
	Medium
	Low Flashing: needs to be recharged.
	Empty

Note:

- When the battery needs to be charged, the handset beeps intermittently during use.

Panasonic battery performance

Operation	Operating time
While in use (talking)	Up to 5 hours
While not in use (standby)	Up to 11 days
While using the clarity booster feature (page 17)	Up to 3 hours

Note:

- Battery operating time may be shortened over time depending on usage conditions and surrounding temperature.

- Battery power is consumed whenever the handset is off the base unit or charger, even when the handset is not in use.
- After the handset is fully charged, displaying "Charge completed", it may be left on the base unit or charger without any ill effect on the battery.
- The battery level may not be displayed correctly after you replace the battery. In this case, place the handset on the base unit or charger and let it charge for 7 hours.

Symbols used in these operating instructions

Symbol	Meaning
[] Button name/ soft key name	The words in the brackets indicate button names/soft key names on the handset and base unit. Example: Unit keys: [↶], [OFF] Soft keys: [View CID], [Phonebook]
→	Proceed to the next operation.
" " Example: "Alarm"	The words in quotations indicate the menu on the display.
Example: [▼]/[▲]: "Off"	Press [▼] or [▲] to select "Off".

Controls

Base unit

Using the navigator key

The handset navigator key can be used to navigate through menus and to select items shown on the display by pressing [**▲**], [**▼**], [**◀**], or [**▶**].

Adjusting audio volume

Press [**▲**] or [**▼**] repeatedly while talking.

Using the soft keys

The handset features 2 soft keys. By pressing a soft key, you can select the feature shown directly above it on the display.

Display

Handset display items

Displayed item	Meaning
[[VE]]	Voice enhancer is on.
[■■■]	Battery level
Example: [1]	The handset's extension number (example shown here: handset 1)*1

*1 KX-TG6052/KX-TG6053

Setting the unit before use

Important:

- To program features by scrolling through the display menus, see page 25.

Date and time

Set the correct date and time.

- To display the date and time when the calls were received in the caller list.
- To use the available alarm function (page 29).
- When you play back a message from the answering system (page 31), the unit announces the day and time it was recorded.

1 [MENU] → [4][1]

2 Enter the current day, month, and year by selecting 2 digits for each.

Example: 15 August, 2007

[1][5] [0][8] [0][7]

3 Enter the current hour and minute (12-hour clock format) by selecting 2 digits for each.

Example: 9:30

[0][9] [3][0]

4 [AM/PM]: Select "AM" or "PM".

5 [Save] → [OFF]

Note:

- If you make a mistake when entering the date and time, press [**◀**], [**▶**], [**▲**], or [**▼**] to move the cursor, then make the correction.
- The date and time may be incorrect after a power failure. In this case, set the date and time again.

Making calls

- 1 Dial the phone number.
 - To correct a digit, press **[Clear]**.
- 2 Press **[↶]** or **[Call]**.
- 3 When you finish talking, press **[OFF]** or place the handset on the base unit or charger.

Note:

- “Line in use” is displayed when someone is talking on the handset or another phone.

Using the speakerphone

- 1 Dial the phone number, and press **[📞]**.
 - Speak alternately with the other party.
- 2 When you finish talking, press **[OFF]**.

Note:

- Use the speakerphone in a quiet environment.
- To switch to the receiver, press **[↶]**.

Adjusting the receiver/speaker volume

Press **[▲]** or **[▼]** repeatedly while talking.

Making a call using the redial list

The last 5 phone numbers dialled are stored in the redial list (each 48 digits max.).

- 1 **[REDIAL]**
- 2 **[▼]/[▲]**: Select the desired phone number.
- 3 **[↶]**

Erasing a number in the redial list

- 1 **[REDIAL]**
- 2 **[▼]/[▲]**: Select the desired phone number.
- 3 **[Erase] → [Yes] → [OFF]**

PAUSE button (for PBX/long distance service users)

A pause is sometimes required when making calls using a PBX or long distance service. When storing a calling card access number and/or PIN in the phonebook, a pause is also needed (page 20).

For example, if you need to dial the line access number “9” when making outside calls with a PBX:

- 1 **[9] → [PAUSE] →** Dial the phone number.
- 2 **[↶]**

Note:

- A 3.5 second pause is inserted each time **[PAUSE]** is pressed. Press repeatedly to insert longer pauses.

Answering calls

When a call is being received, the ringer indicator flashes rapidly.

- 1 Press **[📞]** or **[📞]**.
 - You can also answer the call by pressing any dial key from **[0]** to **[9]**, **[*]**, or **[#]**. (**Any key talk feature**)
- 2 When you finish talking, press **[OFF]**.

Note:

- You can change the ringer indicator colour and the ringer tone (page 27, 28). You can also adjust the handset ringer volume (page 28).

Auto talk

This feature allows you to answer a call by simply lifting the handset off the base unit or charger. You do not need to press **[📞]**. To activate this feature, see page 27.

Temporary ringer off

While the handset is ringing for an outside call, you can turn the ringer off temporarily by pressing **[OFF]**.

Adjusting the base unit ringer volume

Press **[^]** or **[v]** repeatedly to select the desired volume.

- To turn the ringer off, press and hold **[v]** until the unit beeps 2 times.

Useful features during a call

HOLD button

This feature allows you to put an outside call on hold.

KX-TG6051

Press **[HOLD]** during an outside call.

KX-TG6052/KX-TG6053

Press **[HOLD]** 2 times during an outside call.

- To release the hold, press **[📞]**.
- Another handset user can take the call by pressing **[📞]**.

Note:

- If another phone is connected to the same line (page 10), you can also take the call by lifting its handset.
- If a call is kept on hold for more than 6 minutes, an alarm tone starts to sound and the ringer indicator flashes rapidly. After 4 additional minutes on hold, the call is disconnected.

Mute button

While mute is turned on, you can hear the other party, but the other party cannot hear you.

To mute your voice, press **[Mute]**.

- To return to the conversation, press **[Mute]** or **[📞]**.

Note:

- When this feature is turned on, **[Mute]** flashes.
- **[Mute]** is a soft key visible on the handset display during a call.

RECALL button

Pressing **[RECALL]** allows you to use special features of your host PBX such as transferring an extension call, or accessing optional telephone services.

Note:

- To change the recall time, see page 28.

Handset clarity booster

This feature can improve sound clarity when the handset is used in an area where there may be interference. During an outside call, this feature is turned on automatically when necessary. You can also turn this feature on or off manually.

1 Press **[MENU]** during an outside call.

2 **[▼]/[▲]**: Select "Booster on" or "Booster off". → **[Select]**

Note:

- When this feature is turned on, "BOOST" flashes.
- When this feature is turned off manually during a call, it does not turn on automatically during the same call.
- While this feature is turned on;
 - the battery operating time is shortened (page 12).
 - the maximum number of extensions that can be used at a time may decrease.*1

*1 KX-TG6053

Handset voice enhancer

This feature can simulate a band signal above the normal bandwidth limitations, achieving a sound which is close to the actual voice. You can turn this feature on or off depending on the circumstance.

1 Press **[MENU]** during an outside call.

2 **[▼]/[▲]**: Select "V.E. on" or "V.E. off". → **[Select]**

Note:

- When this feature is turned on, **(V3)** is displayed.
- Depending on the condition and quality of your telephone line, this feature may emphasize existing line noise. If it becomes difficult to hear, turn this feature off.

Slow Talk

This feature works to help slow down the incoming audio when you are having a conversation with an outside party.

Important:

- You cannot use this feature when;
 - the handset announces names or phone numbers while receiving a call.
 - you are on an intercom call.
 - you are on a conference call.*1
 - you are listening to messages in the answering system.
 - another unit is using the answering system.
 - another handset is having an intercom call with the base unit.*1

*1 KX-TG6052/KX-TG6053

To turn this feature on or off, press **[Slow]** during an outside call.

Note:

- When this feature is turned on, **[Slow]** flashes.
- KX-TG6052/KX-TG6053:
This feature turns off if another handset starts to have an intercom call with the base unit, or another unit starts to use the answering system.

- **[Slow]** is a soft key visible on the handset display during a call.
- This feature turns off after you hang up the call.
- The speed may become close to normal when the handset receives constant incoming audio for a period of time.

Call share

<p>Available model: KX-TG6052/KX-TG6053</p>

This feature allows the handset to join an existing outside call.

To join the conversation, press **[📞]** when the other handset is on an outside call.

Handset phonebook

You can add up to 50 items to the handset phonebook and search for phonebook items by name.

Adding items to the phonebook

- 1 **[Phonebook]**
- 2 **[Add]**
- 3 Enter the name (max. 16 characters). → **[Next]**
- 4 Enter the phone number (max. 32 digits). → **[Next]** → **[Save]**
 - To add other items, repeat from step 2.
- 5 **[OFF]**

Note:

- Caller ID subscribers can use ringer ID and light-up ID features (page 22).

Character table for entering names

Key	Character
[1]	& ' () , - . / 1
[2]	a b c A B C 2
[3]	d e f D E F 3
[4]	g h i G H I 4
[5]	j k l J K L 5
[6]	m n o M N O 6
[7]	p q r s P Q R S 7
[8]	t u v T U V 8
[9]	w x y z W X Y Z 9
[0]	0 Space
[*]	*
[#]	#

- To enter another character that is located on the same dial key, first press **[>]** to move the cursor to the next space.

Editing/correcting a mistake

Press **[<]** or **[>]** to move the cursor to the character or number you want to erase, then press **[Clear]**. Enter the appropriate character or number.

- Press and hold **[Clear]** to erase all characters or numbers.

Finding and calling a phonebook item

Searching for a name alphabetically by scrolling through all items

- 1 **[Phonebook]** → **[Search]**
- 2 **[v]/[▲]**: Select the desired item.
- 3 Press **[↶]** to dial the phone number.

Searching for a name by initial

- 1 **[Phonebook]** → **[Search]**
- 2 Press the dial key (**[0] – [9]**, **[*]**, or **[#]**) that corresponds to the first letter you are searching for (see the character table, page 19).

Example: "LISA"

Press **[5]** repeatedly to display the first phonebook entry starting with the initial "L" and go to step 3.

 - If there is no item corresponding to the letter you selected, the next item is displayed.
- 3 Press **[v]** to select the desired item.
- 4 Press **[↶]** to dial the phone number.

Editing items in the phonebook

- 1 Find the desired item (page 19). → **[Option]**
- 2 **[▼]/[▲]**: "Edit" → **[Select]**
- 3 Edit the name if necessary (see the character table, page 19). → **[Next]**
- 4 Edit the phone number if necessary. → **[Next]** → **[Save]** → **[OFF]**

Erasing items in the phonebook

- 1 Find the desired item (page 19).
- 2 **[Erase]** → **[Yes]** → **[OFF]**

Chain dial

This feature allows you to dial phone numbers in the handset phonebook while you are on a call. This feature can be used, for example, to dial a calling card access number or bank account PIN that you have stored in the handset phonebook, without having to dial manually.

- 1 During an outside call, press **[MENU]**.
- 2 **[▼]/[▲]**: "Phonebook" → **[Select]**
- 3 Find the desired item (page 19). → **[Call]**

Note:

- When storing a calling card access number and your PIN in the phonebook as one phonebook item, press **[PAUSE]** to add pauses after the number and PIN as necessary (page 15).

Copying handset phonebook items

Available model:

KX-TG6052/KX-TG6053

You can copy one or all of the phonebook items from one handset to another.

Important:

- Ringer ID and light-up ID for phonebook items are not copied.

Copying an item

KX-TG6052

- 1 **[MENU]** → **[⇐][1]**
- 2 **[▼]/[▲]**: Select the desired item. → **[Send]**
- 3 Press **[OFF]** after the long beep.

KX-TG6053

- 1 **[MENU]** → **[⇐][1]**
- 2 **[▼]/[▲]**: Select the handset to copy to. → **[Next]**
- 3 **[▼]/[▲]**: Select the desired item. → **[Send]**
- 4 Press **[OFF]** after the long beep.

Copying all items

KX-TG6052

- 1 **[MENU]** → **[⇐][2]**
- 2 Press **[OFF]** after the long beep.

KX-TG6053

- 1 **[MENU]** → **[⇐][2]**
- 2 **[▼]/[▲]**: Select the handset to copy to. → **[Send]**
- 3 Press **[OFF]** after the long beep.

Using Caller ID service

This unit is Caller ID compatible. To use Caller ID features (such as displaying caller phone numbers), you must subscribe to Caller ID service. Consult your service provider/telephone company for details.

Caller ID features

When an outside call is being received, the calling party's telephone number is displayed.

Telephone numbers for the last 50 callers are logged in the caller list by the most recent call to the oldest.

- If the unit cannot receive caller information, the following is displayed:
 - “**Out of area**”: The caller dialed from an area which does not provide Caller ID service.
 - “**Private caller**”: The caller requested not to send caller information.
- If the unit is connected to a PBX system, caller information may not be received properly. Consult your PBX supplier.
- If the name display service is available in your area, the display shows caller names. For further information, please contact your service provider/telephone company.

Missed calls

If a call is not answered, the unit treats the call as a missed call. You can view the number of missed calls by pressing [**View CID**].

Phonebook name display

When the Caller ID number is received and it matches a phone number stored

in the phonebook, the stored name from the phonebook is displayed and logged in the caller list.

Call waiting and Caller ID compatible

If you subscribe to Caller ID service, your handset displays the 2nd caller's information while talking. After you hear a call waiting tone, the caller's phone number will be displayed.

You can answer the 2nd call, keeping the 1st call on hold.

Follow your service provider/telephone company instructions using [**RECALL**].

- If the phone number is stored in the phonebook with its name, the caller's name will also be displayed.
- Please contact your service provider/telephone company for details and availability in your area.

For Caller ID Type II users

When you receive a 2nd call during a conversation, you will hear a signal tone following the call waiting tone and the **conversation will be interrupted or muted for a short period of time**. This is not a fault of the product as these events are normal.

- The tones are generated by your service provider/telephone company.

Talking Caller ID

This feature lets you know who is calling without looking at the display. To use this feature, you must subscribe to Caller ID service from your service provider/telephone company and turn this feature on (page 28). When a caller information is received, the all supplied handset(s) and base unit announce:

- the caller's phone number following every ring.

- the caller's customized name following every ring, if the caller information matches a phone number stored in the handset 1 phonebook. If the handset 1 does not have a link to the base unit (battery is empty, for instance), the other handset(s)^{*1} and the base unit announce the caller's phone number.

^{*1} KX-TG6052/KX-TG6053

- Usually the unit announces the caller's information after the 2nd ring. Depending on your telephone service provider, the unit may announce the caller's information later than usual.
- Name pronunciation may vary. This feature may not pronounce all names correctly.
- Usually the unit announces the caller's information after the 2nd ring. If you turn on the answering system and set the ring count to "2" (page 34), the unit does not announce the caller's information. If "Toll saver" is selected and there is a new message, the unit does not announce the caller's information.
- Your unit may mute one or more rings in order to announce the caller's information. Talking Caller ID takes precedence over ringing.
- The announcement is heard at the ringer volume (page 15 , 28).
- This feature can be turned on or off (page 28).
- For users in name display service available areas:
 - The unit announces the Caller ID name provided by your telephone service provider.
 - The unit announces the customized phonebook entry name for numbers stored in the handset 1 phonebook.

- Caller ID service has a limit of how many characters can be displayed. If a caller's name is too long, the handset may not be able to display or announce the entire name.

Ringer ID/Light-up ID

This feature can help you identify who is calling by using different ringers and ringer indicator colours for different callers stored in the phonebook. You can assign a different ringer and indicator colour to each phonebook item. When a call is received from a caller stored in the phonebook, the assigned ringer rings and the assigned ringer indicator colour flashes after Caller ID information is displayed. If you select "No Ringer ID" (default) or "No Light-up ID" (default), the handset uses the ringer tone or ringer indicator colour you selected on page 27 when a call is received from that caller.

- The ringer and indicator colour may be changed after the 2nd ring.

- 1 Find the desired item (page 19). → **[Option]**
- 2 To assign a ringer:
[▼]/[▲]: Select "Ringer ID". → **[Select]**
To assign a ringer indicator colour:
[▼]/[▲]: Select "Light-up ID". → **[Select]**
- 3 **[▼]/[▲]**: Select the desired setting.
- 4 **[Save]** → **[OFF]**

Caller list

Viewing the caller list and calling back

1 [View CID]

2 Press [▼] to search from the most recent call, or [▲] to search from the oldest call.

3 To call back, press [↶].
To exit, press [OFF].

Note:

- If you do not want to dial the area codes when making calls from the Caller ID list, you can store the area codes which you want the unit to delete automatically (page 23).
- KX-TG6052/KX-TG6053:
Each handset has its own caller list. The number of missed calls may differ between handsets. Even if you viewed the caller list or answered a call on one handset, the same information is still recognized as a missed call in the other handsets.
- A ✓ is displayed in caller information which has already been viewed or answered.
- If an arrow (→) is displayed after the number, the whole phone number is not shown. Press [▶] to see the remaining numbers. To return to the previous display, press [◀].

Storing your area code

We recommend storing your area code before using Caller ID (page 21). Calls from the same area will be recorded in the caller list without the area code. You do not have to remove it before calling back the caller or storing in the phonebook.

1 [MENU] → [0][4]

2 Enter your area code (max. 8 digits).
• To correct a digit, press [◀] or [▶] to move the cursor, then press [Clear]. Enter the correct number.

3 [Save] → [OFF]

To erase your area code

Press and hold [Clear] in step 2, press [Save], then press [OFF].

Editing a caller's phone number before calling back

You can edit a phone number in the caller list.

1 [View CID]

2 [▼]/[▲]: Select the desired item. →
[Select] → [Edit]

3 Add or erase digits to the beginning of the number as necessary.
• To add a digit, press the desired dial key.
• To erase a digit, press [Clear] or [⏏].

4 [↶]

Note:

- The edited phone number is not saved in the caller list.

Storing caller information into the phonebook

- 1 **[View CID]**
- 2 **[▼]/[▲]**: Select the desired item. → **[Select]**
 - To edit the number, press **[Edit]**, then edit the number (see step 3 on page 23, "Editing a caller's phone number before calling back").
- 3 **[Save]**
 - If there is name information for the caller, skip to step 5.
- 4 Enter the name (see the character table, page 19). → **[Next]** → **[Save]**
- 5 **[OFF]**

Erasing selected caller information

- 1 **[View CID]**
- 2 **[▼]/[▲]**: Select the desired item.
- 3 **[Erase]** → **[Yes]** → **[OFF]**

Erasing all caller information

- 1 **[View CID]**
- 2 **[All erase]** → **[Yes]**

Programmable settings

You can customize the unit by programming the following features using the handset. To access the features, there are 2 methods:

- scrolling through the display menus (page 25)
- using the direct commands (page 27)
- Mainly the direct command method is used in these operating instructions.

Programming by scrolling through the display menus

1 [MENU]

2 Press [▼] or [▲] to select the desired menu. → [Select]

- If there is a sub-menu(s), press [▼] or [▲] to select the desired item. → [Select]

3 Press [▼] or [▲] to select the desired setting. → [Save]

- This step may vary depending on the feature being programmed.

4 [OFF]

^{*1} If “System setting” column is checked, you do not need to program the same item using another handset (KX-TG6052/KX-TG6053).

^{*2} If you subscribe to Caller ID service and want to view the caller’s information after lifting up the handset to answer a call, turn off this feature.

^{*3} KX-TG6052/KX-TG6053 only

^{*4} Turn this feature off if you prefer not to hear key tones while you are dialling or pressing any keys, including confirmation tones and error tones.

^{*5} The recall time depends on your telephone exchange or host PBX. Consult your PBX supplier if necessary.

You can access your service provider/telephone company “Call Waiting” service

by having the recall time set at 100 ms, and then follow your service provider/telephone company "Call Waiting" instructions to operate this service.

- *6 Generally, the line mode setting should not be adjusted. If "Line in use" is not displayed when another phone connected to the same line is in use, you need to change the line mode to "A".
- *7 This feature allows the unit to automatically adjust the date and time setting when caller information is received. To use this feature, set the date and time first.

Alarm

An alarm will sound once for 3 minutes at the set time.

Set the date and time beforehand (page 14).

1 [MENU] → [8]

2 [▼]/[▲]: "Once" → [Select]

- To turn off the alarm, select "off". → [Select] → [OFF]

3 Set the desired date and time. → [Save]

4 [▼]/[▲]: Select the desired ringer tone. → [Save]

- We recommend selecting a different ringer tone from outside call.

5 [OFF]

Note:

- To stop the alarm, press any dial key or place the handset on the base unit or charger.
- When the handset is in use, the alarm will not sound until the handset is in standby mode.

Customer support

The handset can display the Internet address where you can download the operating instructions or get further information for this product using your computer.

[MENU] → [▼]/[▲]: "Customer support" → [Select] → [OFF]

Answering system

This unit contains an answering system which can answer and record calls for you when you are unavailable to answer the phone.

Important:

- Only 1 person can access the answering system at a time.
- When callers leave messages, the unit records the day and time of each message. Make sure the date and time have been correctly set (page 14).

Memory capacity

The total recording capacity (including your greeting message) is about 16 minutes.

A maximum of 64 messages can be recorded.

- If the message memory becomes full, the ANSWER ON indicator flashes rapidly (if the answering system is turned on). Erase unnecessary messages (page 31).
- When the message memory becomes full, the greeting message is different depending on your situation:
 - If you use the prerecorded greeting message, the unit automatically switches to another prerecorded greeting message asking callers to call again later.
 - If you recorded your own greeting message, the same message is still announced to callers even though their messages are not recorded.

Turning the answering system on/off

Press **[ANSWER ON]** to turn on/off the answering system.

- When the answering system is turned on, the ANSWER ON indicator lights.
- When the answering system is turned off, the ANSWER ON indicator turns off.

Screening calls

While a caller is leaving a message, you can listen to the call through the base unit's speaker. To adjust the speaker volume, press **[^]** or **[v]** repeatedly. You can answer the call by pressing **[hook]** on the handset.

Turning off the call screening feature

When the base unit is not in use, press **[GREETING CHECK]**, then press and hold **[v]** until the base unit beeps.

OR

While screening a call, press and hold **[v]** until the sound goes off.

Note:

- If you adjust the speaker volume while listening to messages or talking on the intercom, the speaker volume for call screening is turned on again.

Greeting message

When the unit answers a call, callers are greeted by a greeting message. You can record your own greeting message or use a prerecorded greeting message.

Recording your greeting message

You can record your own greeting message (max. 2 minutes). If you do not record a greeting message, a prerecorded greeting message is used.

- 1 **[GREETING REC]**
- 2 Within 10 seconds, press **[GREETING REC]** again.
- 3 After the base unit beeps, speak clearly about 20 cm away from the MIC.
- 4 To stop recording, press **[STOP]**.

Using a prerecorded greeting message

If you erase or do not record your own greeting message, the unit plays a prerecorded greeting message for callers and ask them to leave messages.

Playing back the greeting message

Press **[GREETING CHECK]**.

Erasing your greeting message

Press **[GREETING CHECK]**, and then press **[ERASE]** while your greeting message is playing.

Listening to messages using the base unit

When new messages have been recorded, the MESSAGE indicator on the base unit flashes.

Press **[MESSAGE]**.

- The base unit plays new messages.
- When you have no new messages, the base unit plays back all messages.

Operating the answering system

Key	Operation
[^] or [v]	Adjust the speaker volume
[<<]	Repeat message (during playback) ^{*1}
[>>]	Skip message (during playback)
[STOP]	Pause message – To resume playback, press [MESSAGE] . – To stop playback completely, press [STOP] again.
[ERASE]	Erase message currently playing

^{*1} If pressed within the first 5 seconds of a message, the previous message is played.

Erasing all messages

Press **[ERASE]** 2 times while the unit is not being used.

Listening to messages using the handset

When new messages have been recorded:

- "New message" is displayed.
- The message indicator on the handset flashes slowly if the message alert feature is turned on (page 35).

1 [MENU]

2 [▼]/[▲]: "Message play" → [Select]

- The handset plays new messages.
- When you have no new messages, the handset plays back all messages.

3 When finished, press [OFF].

Note:

- To switch to the receiver, press [↶].

Voice guidance

If you do not press any buttons after the last message is played back, the handset's voice guidance starts. Operate the answering system by following the guidance as necessary.

Calling back (Caller ID subscribers only)

If Caller ID information was received for the call, you can call the caller back while listening to the message.

1 Press [Select] during playback.

- To edit the number, press [Edit], then edit the number (see step 3 on page 23, "Editing a caller's phone number before calling back").

2 [Call]

Operating the answering system

You can also operate the answering system by pressing dial keys on the handset during playback.

Key	Operation
[▲] or [▼]	Adjust the receiver/speaker volume
[1] or [◀]	Repeat message (during playback)*1
[2] or [▶]	Skip message (during playback)
[4]	Play new messages
[5]	Play all messages
[8]	Turn answering system on
[9]	Stop playback*2
[0]	Turn answering system off
[*][4] or [Erase]	Erase message currently playing
[*][5]	Erase all messages

*1 If pressed within the first 5 seconds of a message, the previous message is played.

*2 To resume operation, press a command key within 15 seconds, or the voice guidance will start.

Remote operation

Using a touch tone phone, you can call your phone number from outside and access the unit to listen to messages. The unit's voice guidance prompts you to press certain dial keys to perform different operations.

Important:

- In order to operate the answering system remotely, you must first set a remote code (page 34). This code must be entered each time you operate the answering system remotely.

Using the answering system remotely

- 1 Dial your phone number from a touch tone phone.
- 2 After the greeting message starts, enter your remote code (page 34).
 - The unit plays back new messages.
 - The voice guidance informs you of the available commands.
- 3 Control the unit using remote commands (page 33).
- 4 When finished, hang up.

Voice guidance

During remote operation, the unit's voice guidance starts and prompts you to press **[1]** to perform a specific operation, or press **[2]** to listen to more available operations. Operations are presented by voice guidance in the following order:

- Play back all messages
- Play back new messages
- Record a message
- Erase all messages

Note:

- If you do not press any dial keys within 10 seconds after a voice guidance prompt, the unit disconnects your call.

Remote commands

You can press dial keys to access certain answering system functions without waiting for the voice guidance to prompt you.

Key	Remote command
[1]	Repeat message (during playback)*1
[2]	Skip message (during playback)
[4]	Play new messages
[5]	Play all messages
[9]	Stop playback*2
[0]	Turn answering system off
[*][4]	Erase message currently playing
[*][5]	Erase all messages

*1 If pressed within the first 5 seconds of a message, the previous message is played.

*2 To resume operation, enter a remote command within 15 seconds, or the voice guidance starts.

Turning on the answering system remotely

If the answering system is off, you can turn it on remotely.

- 1 Dial your phone number.
- 2 Let the phone ring 15 times.
 - The unit answers your call with the greeting message.
 - You can hang up, or if you call from a touch tone phone, you can enter your remote code and begin remote operation (page 33).

Skipping the greeting message to leave a message

You can leave a message just as any outside caller can. Call your phone number. When the answering system picks up, press **[*]** to skip the greeting message and record your message after the beep.

Answering system settings

Remote code

A remote code must be entered when operating the answering system remotely. This code prevents unauthorised parties from listening to your messages remotely. The default setting is "11".

- 1 **[MENU] → [0][6][3]**
- 2 Enter the desired 2-digit remote code. → **[Save] → [OFF]**

Ring count

You can change the number of times the phone rings before the unit answers calls.

The default setting is "4".

"Toll saver": The unit answers on the 2nd ring when new messages have been recorded, and on the 4th ring when there are no new messages. If you call your phone from outside to listen to new messages (page 33), you will know that there are no new messages when the phone rings for the 3rd time. You can then hang up without being charged for the call.

- 1 **[MENU] → [0][6][1]**
- 2 **[▼]/[▲]**: Select the desired setting.
- 3 **[Save] → [OFF]**

For Service Provider Voice Mail Subscribers

To receive Voice Mail and use answering system properly, please note the following:

- "Voice Mail" is a service provided by your service provider/telephone company. You will need to first

subscribe or activate this service through your service provider/telephone company. Consult your service provider/telephone company on how to operate this service and how you will be notified that you have messages on your Voice Mail.

To use this service you will be required to leave your answering machine off on your unit.

This will allow the Voice Mail to receive any messages.

- To use the unit's answering machine rather than the Voice Mail service provided by your service provider/telephone company, please consult your service provider/telephone company to have it removed or deactivated permanently or temporarily.

Alternatively you can leave this service connected and change the "Ring count" to a shorter duration on your unit so your unit's answering machine can pick up the call prior to the Voice Mail provided by your service provider/telephone company.

Caller's recording time

You can change the maximum message recording time allotted to each caller.

The default setting is "3min".

1 [MENU] → [0][6][2]

2 [▼]/[▲]: Select the desired setting.

3 [Save] → [OFF]

Message alert

You can select whether or not the message indicator on the handset flashes slowly when new messages are recorded. The default setting is "OFF".

Important:

- If there are new Voice Mail messages present (page 36), the message indicator also flashes slowly.

1 [MENU] → [0][#]

2 [▼]/[▲]: Select the desired setting.

3 [Save] → [OFF]

Note:

- While message alert is on, battery operating time is shortened (page 12).

Using Voice Mail service

Voice Mail is an automatic answering service offered by your service provider/telephone company. After you subscribe to this service, the service provider/telephone company's Voice Mail system will answer calls for you when you are unavailable to answer the phone or when your line is busy. Messages are recorded by the service provider/telephone company, not your telephone.

Important:

- To use the Voice Mail service provided by your service provider/telephone company rather than the unit's answering system, turn off the answering system (page 30).

Storing the Voice Mail (VM) access number

In order to listen to your Voice Mail messages, you must dial your service provider/telephone company's Voice Mail access number. Once you have stored your Voice Mail access number, you can dial it automatically (page 36).

- 1 **[MENU]** → **[0][7][1]**
- 2 Enter your access number (max. 32 digits). → **[Save]** → **[OFF]**

Note:

- When storing your Voice Mail access number and your mailbox password, press **[PAUSE]** to add pauses (page 15) between the access number and the password as necessary. Consult your service provider/telephone company for the required pause time.

Example:

<u>0222333444</u>	<u>PPPP</u>	<u>8888</u>
VM access number	Pauses	Password

To erase the Voice Mail access number

Repeat step 1, then press and hold **[Clear]** until all digits are erased. Press **[Save]**, then press **[OFF]**.

Listening to Voice Mail messages

If compatible with message indication signals provided by your service provider/telephone company, the unit lets you know that you have new Voice Mail messages in the following ways:

- “**New Voice Mail**” is displayed on the handset.
- The message indicator on the handset flashes slowly if message alert feature is turned on (page 37).

- 1 Press **[↶]**, then press **[VM]** within 15 seconds.
OR
[MENU] → **[▼]/[▲]**: “**V.M. access**” → **[Select]**
 - The speakerphone turns on.
- 2 Follow the prerecorded instructions.
- 3 When finished, press **[OFF]**.

Note:

- If **[VM]** is not displayed, the Voice Mail access number has not been stored. Store the number (page 36).
- If the handset still indicates there are new messages even after you have listened to all new messages, turn it off by pressing and holding **[OFF]** until the handset beeps.

Message alert

You can select whether or not the message indicator on the handset flashes slowly when there are new recorded messages in the Voice Mail system.

The default setting is "OFF".

Important:

- If there are new answering system messages present (page 30), the message indicator also flashes slowly.

1 [MENU] → [0][#]

2 [▼]/[▲]: Select the desired setting.

3 [Save] → [OFF]

Note:

- While message alert is on, battery operating time is shortened (page 12).

Intercom

Intercom calls can be made:

- between handsets
(KX-TG6052/KX-TG6053)
- between the handset and base unit

Note:

- If you receive an outside call while talking on the intercom, you hear 2 tones. To answer the call, press **[OFF]**, then press **[↶]**.
- When paging a unit for an intercom call, the paged unit beeps for 1 minute.

Making an intercom call

Handset

KX-TG6051

- 1 **[INTERCOM]**
 - To stop paging, press **[OFF]**.
- 2 When you finish talking, press **[OFF]**.

KX-TG6052/KX-TG6053

- 1 **[INTERCOM]**
- 2 **[▼]/[▲]**: Select the desired unit. → **[Select]**
 - To stop paging, press **[OFF]**.
- 3 When you finish talking, press **[OFF]**.

Base unit

- 1 **[INTERCOM]**
 - All the registered handsets beep for 1 minute.
 - To stop paging, press **[INTERCOM]**.
- 2 When you finish talking, press **[INTERCOM]**.

Answering an intercom call

Handset

- 1 Press **[↶]** or **[📞]** to answer the page.
- 2 When you finish talking, press **[OFF]**.

Base unit

- 1 Press **[INTERCOM]** to answer the page.
- 2 When you finish talking, press **[INTERCOM]**.

Note:

- When the ringer volume is set to off, the handset or the base unit rings at a low level for intercom calls.

Handset locator

You can locate a misplaced handset by paging it.

- 1 **Base unit:**
[LOCATOR]
 - The handset beeps for 1 minute.
- 2 To stop paging:
Base unit:
Press **[LOCATOR]**.
Handset:
Press **[INTERCOM]**, then press **[OFF]**.

Transferring calls between handsets, conference calls

Available model:

KX-TG6052/KX-TG6053

Outside calls can be transferred between 2 handsets. 2 handsets can have a conference call with an outside party.

1 During an outside call, press **[INTERCOM]** to put the call on hold.

2 KX-TG6052

Press the right soft key.

KX-TG6053

[▼]/[▲]: Select the desired unit. →

[Transfer]

3 Wait for the paged party to answer.

- If the paged party does not answer, press **[↶]** to return to the outside call.

4 To complete the transfer:

Press **[OFF]**.

- The outside call is being routed to the handset.

To establish a conference call:

Press **[Conf]**.

- To leave the conference, press **[OFF]**. The other parties can continue the conversation.
- To put the outside call on hold, press **[HOLD]**. To resume the conference, press **[Conf]**.

Answering transferred calls

Press **[↶]** to answer the page.

- After the paging party disconnects, you can talk to the outside caller.

Wall mounting

Base unit

- 1 Insert the hooks on the wall mounting adaptor into the holes **A** and **B** on the base unit.

- 2 While pressing down the lever **(1)**, press it in the direction of the arrow **(2)** until it is secure.

- 3 Tuck the telephone line cord inside the wall mounting adaptor and connect the cord. Drive the screws (not included) into the wall. Mount the unit, and then slide it down. Connect the AC adaptor to power outlet (page 10).

To remove the wall mounting adaptor

While pushing down the release lever **(1)**, remove the adaptor **(2)**.

Wall mount template for the base unit

Charger

Available model:

KX-TG6052/KX-TG6053

- 1 Drive the screws (not included) into the wall.

- 2 Mount the charger (1), then slide it down (2) and to the right (3) until it is secure.

Wall mount template for the charger

Headset (optional)

Connecting a headset to the handset allows hands-free phone conversations. We recommend using the Panasonic headset noted on page 5.

- Headset shown is KX-TCA86AL.

Note:

- Only telecommunications compliance labelled headsets should be plugged into the headset socket on the handset.

Switching a call between the headset and handset speakerphone

To switch to the handset speakerphone, press [📞].

To return to the headset, press [📞].

Lanyard/strap eyelet

If you have a lanyard/strap (not included), you can hang your handset from your neck or wrist. Thread it through the eyelet as shown and pull to tighten it.

Error messages

If the unit detects a problem, one of the following messages is shown on the display.

Display message	Cause/solution
Busy	<ul style="list-style-type: none">• The called unit is in use.• The handset you tried to copy phonebook items to is in use. Try again later.*¹• The handset you are calling is too far from the base unit.
Error!!	<ul style="list-style-type: none">• The handset's registration has failed. Move the handset and base unit away from all electrical appliances and try again.• Another handset user tried to send phonebook items to you but there was an error. Have the other handset user re-send the items to you (page 20).*¹
---Incomplete--- Phonebook full	<ul style="list-style-type: none">• The destination handset's phonebook memory is full. Erase unnecessary items from the destination handset's phonebook (page 20).*¹
Invalid	<ul style="list-style-type: none">• There is no handset registered to the base unit matching the extension number you entered.*¹
No items stored	<ul style="list-style-type: none">• Your phonebook or redial list is empty.
No link to base. Move closer to base, try again.	<ul style="list-style-type: none">• The handset has lost communication with the base unit. Move closer to the base unit, and try again.• Confirm that the base unit's AC adaptor is plugged in.• The handset's registration may have been cancelled. Re-register the handset (page 47).
Phonebook full	<ul style="list-style-type: none">• There is no space to store new items in the phonebook. Erase unnecessary items (page 20).
Please lift up and try again.	<ul style="list-style-type: none">• A handset button was pressed while the handset was on the base unit or charger. Lift the handset and press the button again.
System is busy. Please try again later.	<ul style="list-style-type: none">• Other units are in use and the system is busy. Try again later.• Another user is listening to messages. Try again later.• The handset's registration may have been cancelled. Re-register the handset (page 47).

Troubleshooting

General use

Problem	Cause/solution
The unit does not work.	<ul style="list-style-type: none"> Make sure the battery is installed correctly and fully charged (page 11). Check the connections (page 10). Unplug the base unit's AC adaptor to reset the unit. Reconnect the adaptor and try again. The handset has not been registered to the base unit. Register the handset (page 47).
I cannot hear a dial tone.	<ul style="list-style-type: none"> Confirm the telephone line cord is properly connected (page 10). Disconnect the unit from the telephone line and connect a known working telephone. If the working telephone operates properly, contact our service personnel to have the unit repaired. If the working telephone does not operate properly, contact your service provider/telephone company.
The communication between the base unit and the handset is unstable.	<ul style="list-style-type: none"> The handset may not be properly registered. Try to re-register the handset (page 47).
The indicator on the top right of the handset flashes slowly.	<ul style="list-style-type: none"> New messages have been recorded. Listen to the new messages (page 31). New Voice Mail messages have been recorded. Listen to the new Voice Mail messages (page 36).

Programmable settings

Problem	Cause/solution
I cannot program items.	<ul style="list-style-type: none"> Programming is not possible while either the base unit or another handset is being used. Try again later.

Useful Information

Problem	Cause/solution
I cannot set the alarm.	<ul style="list-style-type: none">● In order to set the alarm, you must first set the date and time (page 14).● The handset has lost communication with the base unit. Move closer to the base unit, and try again.
While programming, the handset starts to ring.	<ul style="list-style-type: none">● A call is being received. Answer the call and start again after hanging up.

Battery recharge

Problem	Cause/solution
I fully charged the battery, but  continues to flash, or  is displayed.	<ul style="list-style-type: none">● Clean the charge contacts and charge again (page 12).● The battery may need to be replaced with a new one (page 11).
The handset display is blank.	<ul style="list-style-type: none">● Confirm that the battery is properly installed.● Fully charge the battery (page 11).
While charging, the charge indicator does not light and "Charge for 7h" is displayed.	<ul style="list-style-type: none">● The battery is empty. The charge indicator does not light in order to concentrate on charging. After about 5 minutes, the charge indicator lights and "Charging" is displayed.

Making/answering calls, intercom

Problem	Cause/solution
Static is heard, sound cuts in and out. Interference from other electrical units.	<ul style="list-style-type: none">● Move the handset and base unit away from other electrical appliances.● Move closer to the base unit.● Turn on the clarity booster feature (page 17).● If your unit is connected to a telephone line with ADSL service, we recommend connecting an ADSL filter between the base unit and the telephone line socket. Contact your ADSL provider for details.
The handset does not ring.	<ul style="list-style-type: none">● The ringer volume is turned off. Adjust it (page 28).
The base unit does not ring.	<ul style="list-style-type: none">● The ringer volume is turned off. Adjust it (page 16).

Problem	Cause/solution
I cannot make a call.	<ul style="list-style-type: none"> • Another handset is in use. Try again later. • If the above remedy does not solve the problem, set the dialling mode. Press [MENU] [0] [5] [1] [Save] [OFF]. • The unit is not designed to be used with rotary (pulse dialling) services.
I cannot have a conversation using the headset.	<ul style="list-style-type: none"> • Make sure that an optional headset is connected properly (page 41). • If "SP-phone" is displayed on the handset, press [↶] to switch to the headset. • We recommend using the Panasonic headset noted on page 5.
I cannot page the handset.	<ul style="list-style-type: none"> • The called handset is too far from the base unit. • The called handset is in use. Try again later.
I cannot page the base unit.	<ul style="list-style-type: none"> • The base unit is in use. Try again later.
The Slow Talk feature does not work.*1	<ul style="list-style-type: none"> • If you are on a conference call, you cannot use the Slow Talk feature.

*1 KX-TG6052/KX-TG6053

Caller ID

Problem	Cause/solution
The handset does not display the caller's phone number.	<ul style="list-style-type: none"> • You have not subscribed to Caller ID service. Contact your service provider/telephone company to subscribe. • If your unit is connected to any additional telephone equipment such as a Caller ID box or cordless telephone line socket, disconnect the unit from the equipment and plug the unit directly into the wall socket. • If your unit is connected to a telephone line with ADSL service, we recommend connecting an ADSL filter between the base unit and the telephone line socket. Contact your ADSL provider for details. • Other telephone equipment may be interfering with this unit. Disconnect the other equipment and try again. • The caller requested not to send caller information (page 21).

Useful Information

Problem	Cause/solution
The handset or base unit does not announce the displayed caller names or phone numbers.	<ul style="list-style-type: none">• The handset or base unit's ringer volume is turned off. Adjust it (page 16, 28).• The Talking Caller ID feature is turned off. Turn it on (page 28).• The ring count for the answering system is set to "2" or "Toll saver". Select a different setting (page 34).• If the base unit and another handset are having an intercom call, your handset does not announce caller information.*¹

*1 KX-TG6052/KX-TG6053

Answering system

Problem	Cause/solution
I cannot listen to messages from a remote location.	<ul style="list-style-type: none">• A touch tone phone is required for remote operation.• Enter the remote code correctly (page 34).• The answering system is off. Turn it on (page 34).
The unit does not record new messages.	<ul style="list-style-type: none">• The answering system is off. Turn it on (page 30, 34).• The message memory is full. Erase unnecessary messages (page 31, 32).• If you subscribe to the Voice Mail service, messages are recorded by the service provider/telephone company not your telephone (page 34).
I cannot operate the answering system.	<ul style="list-style-type: none">• Someone is operating the answering system.• If someone is talking on a conference call, you cannot operate the answering system. Try again later.

Registration

Problem	Cause/solution
The handset registration may have been cancelled or the communication between the base unit and the handset is unstable.	<ul style="list-style-type: none">• Re-register the handset.<ol style="list-style-type: none">1 Handset: [MENU] → [0][0][1]2 Base unit: Press and hold [LOCATOR] until the IN USE indicator flashes.3 Handset: Press [OK], then wait until a beep sounds. → [OFF]If the registration fails, try to deregister the handset first: KX-TG6051 Press [MENU] → [0][0][2] → [3][3][5] → [OK] → [1], then re-register it again. KX-TG6052/KX-TG6053 Use another handset to deregister the unstable handset. Press [MENU] → [0][0][2] → [3][3][5] → [OK] → [1], [2], or [3] (The handset number which you want to cancel). Try to re-register it again.<ul style="list-style-type: none">• If the above remedy does not solve the problem, consult your nearest Panasonic service centre.

Instructions to customer

Installation

Attached to this apparatus is an approval label. This label is evidence that it is a "Permitted Attachment" which has been authorised to be connected to your telephone service.

Conditions relating to connection and operation of this Permitted Attachment are contained in Telecommunications General By-Law 220 (5).

You are authorised to install this Permitted Attachment yourself by plugging it into the line socket of any regular telephone. You may connect it in place of your existing telephone or to any spare telephone socket installed in your premises.

To disconnect your existing telephone you must first remove its plug from the line socket. You can then insert the plug of your Permitted Attachment into the socket and use your equipment.

If the plug of your existing telephone cannot be readily removed, you will have to remove the screw securing it. To do this proceed as follows:

1. Loosen screw "A" sufficiently to remove the socket cover. (See Fig. 1.)
2. Remove screw "B" and withdraw the plug. (See Fig. 2.)
3. Replace screw "B". (See Fig. 3.) Ensure that it screws completely into the socket recess. (If the screw is too long, increase the hole depth or replace the screw with one 5 mm shorter.)
4. Replace socket cover and tighten screw "A". (See Fig. 4.)

If you are satisfied with the operation of your telephone service after plugging in your Permitted Attachment, your installation is completed.

You will be unable to connect this Permitted Attachment if your telephone service consists only of a wall phone or an old style telephone which is not connected by means of a modern plug and socket. In such cases a new socket will need to be installed.

Should the Permitted Attachment not operate when plugged into a socket, it is either faulty or unsuitable for operation with your telephone service. It should be returned to the store where purchased or an Authorised Service Centre.

Service difficulties

If at any time a fault occurs on your telephone service, carry out the following checks before you call for service:

- Disconnect the Permitted Attachment and try using the service with the normal telephone.
- If the telephone service then operates satisfactorily, the fault is in your Permitted Attachment. Leave the Permitted Attachment disconnected and report the fault to its supplier or agent to arrange for repair.
- If when using the telephone the service is still faulty, report the fault to "Service Difficulties and Faults" for attention.

You are required to keep this Permitted Attachment in good working order while it is connected to your telephone service. Its construction or internal circuit must not be modified in any way without permission.

WARNING:

This cordless telephone system does not incorporate provision for secrecy of conversations. Appropriately tuned radio equipment and other cordless telephone systems in close proximity may be used by a third party to monitor and possibly interrupt conversations in progress when this system is on radio operation.

Specifications

General

Operating environment	5 °C – 40 °C
Frequency	5.76 GHz – 5.84 GHz

Base unit

Dimensions	Approx. height 97 mm × width 120 mm × depth 144 mm
Mass (Weight)	Approx. 270 g
Power consumption	Standby: Approx. 1.5 W, Maximum: Approx. 4.5 W
Power output	200 mW (max.)
Power supply	AC adaptor (230–240 V AC, 50/60 Hz)

Handset

Dimensions	Approx. height 156 mm × width 48 mm × depth 33 mm
Mass (Weight)	Approx. 160 g
Power output	200 mW (max.)
Power supply	Ni-MH battery (3.6 V, 650 mAh)

Charger (KX-TG6052/KX-TG6053)

Dimensions	Approx. height 68 mm × width 82 mm × depth 87 mm
Mass (Weight)	Approx. 80 g
Power consumption	Standby: Approx. 0.8 W Maximum: Approx. 3.2 W
Power supply	AC adaptor (230–240 V AC, 50/60 Hz)
